Vibrance Rag[™] by Breathing Color

Description:

Vibrance Rag[™] is a stunning combination of 100% cotton paper, a traditional baryta board, and a premium inkjet-receptive coating that is characteristic of all Breathing Color products. This 325gsm, 100% cotton luxurious photography paper has a fine surface texture and a baryta gloss finish. It is both acid and lignin free. Vibrance Rag is ideal for the most demanding photographers, and lends itself particularly well to black and white images.
